

# Oshawa CMA

Percentage of the population below the after-tax low-income measure<sup>1</sup> in 2015,  
by 2016 census tract (CT)

Source: Statistics Canada, Census of Population, 2016.

1. For a one-person household, the after-tax low-income measure (LIM-AT) is \$22,133.  
For larger households, this amount is adjusted upward by multiplying it by the square root of household size.
